Dear Nelson:

Dorothy and I want to thank you for the outstanding work you and your crew did on our new home. In this day and age it is hard to find a contractor who fulfills all of his promises and commitments in such an honest, timely, and efficient manner.

Although we were working mostly by telephone from a hundred miles away, you agreed to the changes we wanted to make in the plans, and made several suggestions yourself (such as widening doorways) that will make the house more convenient for us. You explained the cost adjustments that would be necessary and in some instances those adjustments were in our favor. You followed up with the local dealers to assure that our appliances etc. were delivered when needed.

When we visited the site you and your crew were always hard at work and were very pleasant and courteous. In spite of the worst winter weather in recent history and the delays and hardships it must have caused, we were able to move into the house at the very time you had estimated five months earlier.

It has been a real pleasure doing business with you.

Sincerely yours, *Fred Stuart*
